

# Cisco Unified Wireless IP Phone 7921G

Cisco<sup>®</sup> Unified Communications is a comprehensive IP communications system of voice, video, data, and mobility products and applications. It enables more effective, more secure, more personal communications that directly affect both sales and profitability. It brings people together by enabling a new way of communicating-where your business moves with you, security is everywhere, and information is always available...whenever and wherever it is needed. Cisco Unified Communications is part of an integrated solution that includes network infrastructure, security, mobility, network management products, lifecycle services, flexible deployment and outsourced management options, end-user and partner financing packages, and third-party communications applications.

The power of the Cisco Unified Communications family of products extends throughout the enterprise by delivering a powerful, converged wireless solution with intelligent wireless infrastructure and an innovative product with the new Cisco Unified Wireless IP Phone 7921G (Figure 1). The device delivers on-campus mobility to users using the voice over wireless LAN.

#### **Features**

The Cisco Unified Wireless IP Phone 7921G supports a host of calling features and voice-quality enhancements. The device is an advanced media IP phone i.e. delivers wideband audio capabilities. Besides wideband audio, Cisco Unified Wireless IP Phone 7921G also supports presence which enables indication on the current status of other parties to users in a mobile WiFi environment. Because the Cisco Unified Wireless IP Phone 7921G is designed to grow with system capabilities, features will keep pace with new system enhancements. Table 1 provides a list of the features, Table 2 summarizes wireless characteristics, Table 3 lists specifications, Table 4 lists accessories, and Table 5 provides certification and compliance information.

Table 1. Features

Features	Description
Features	Six line appearances
i outui oo	Abbreviated dialing
	Adjustable ringing and volume levels
	Adjustable display brightness and timeout
	Any-key answer
	Audible and vibrating ringers
	Auto answer
	Autodetection of headset and autoanswer from headset
	Automatic keypad lock
	Barge
	Call back
	Call forward
	Call history lists
	• Call park
	Call pickup
	Call timer
	Call waiting
	• Caller ID
	• cBarge
	-
	Corporate directory     Conference
	Direct transfer
	Extension mobility service     Fact title agriculture.
	• Fast dial service
	Group call pickup
	• Hold
	Hotkey for keypad lock, vibration and ring toggle, and voicemail access
	Immediate divert
	• Join
	Last number redial
	Malicious caller ID
	Message waiting indicator
	Meet-me conference
	Multilevel precedence and preemption (MLPP)
	Music on hold
	• Mute
	Network profiles (automatic)
	On- and off-network distinctive ringing
	OPickUp
	Personal directory
	Predialing before sending
	Privacy
	Quality report tool (QRT)
	Redial
	Ring tone per line appearance
	Service URL
	Shared line
	Time and date display
	Transfer
Buttons	Two soft key buttons to access screen-based applications, features, and functions
	Application button that can support Push-to-talk via XML
	• Mute
	Speakerphone
	Five-way navigation support
	I ● Volume control
	Volume control     Send button and Power/End button
	Send button and Power/End button
Display	

Protocol support	Skinny Client Control Protocol (SCCP) Cisco Unified Communications Manager Versions 4.1, 4.2, 4.3, 5.0, and later Cisco Unified Communications Manager Express Version 4.1 and later Cisco Unified Survivable Remote Site Telephony (SRST) Version 4.1 and later Cisco Compatible Extensions Version 4.0 Extensible markup language (XML)
Codec support	G.711a, G.711u, G.729a, G.729ab, G.722, and iLBC audio compression codecs
Configuration options	<ul> <li>Dynamic Host Configuration Protocol (DHCP) client or statically configured</li> <li>Support for online firmware upgrades using Trivial File Transfer Protocol (TFTP)</li> <li>Domain Name System (DNS)</li> </ul>
Network features	<ul> <li>Cisco Discovery Protocol</li> <li>Transparent secure roaming</li> <li>Provisioning of network parameters through DHCP</li> </ul>
Security features	Certificates Image authentication Device authentication File authentication Signaling authentication Secure Cisco Unified SRST Media encryption using Secure Real-Time Protocol (SRTP) Signaling encryption using Transport Layer Security (TLS) Protocol Certificate authority proxy function (CAPF) Secure profiles Encrypted configuration files
Provisioning and management	Web server for configuration and statistics     Capability to disable local phone settings     Quality-of-service (QoS) reporting: jitter, delay, dropped packets, and latency on a per-call basis     Real Time Control Protocol (RTCP) support and monitoring     Syslog     Wavelink® Avalanche™ (http://www.wavelink.com)
Deployment tools	Integrated site survey tool
Language support	Catalan, Danish, Dutch, English, Finnish, French, German, Italian, Japanese, Norwegian, Portuguese, Spanish, and Swedish

 Specifications

Item	Description
Dimensions (H x W x D)	• Phone: 5.0 x 2.1 x 1.0 in. (12.7 x 5.3 x 2.5 cm)
	Desktop charger: 3.4 x 4.8 x 5.1 in. (8.6 x 12.2 x 13 cm)
Weight	Phone with standard battery: 5 oz (145 g)
	Desktop charger: 12.9 oz (365 g)
Battery	Standard lithium-ion (Li-ion) battery life: up to 11.5 hours talk time / 150 hours standby (Release 1.0.4 or later)
	<ul> <li>Extended Li-ion battery life: up to 15.5 hours talk time / 200 hours standby (Release 1.0.4 or later)</li> </ul>
	Actual battery life varies based on environmental factors
Input Power	• Phone: 100-240 VAC, ~0.2 A, 50-60 Hz
	<ul> <li>Desktop charger: 100-240 VAC, ~0.3 A, 50-60 Hz</li> </ul>
	AC adapters (by geographical region)
Operating temperature	32 to 104年 (0 to 40℃)
Storage temperature	-22 to 140℉ (-30 to 60℃)
Relative humidity	10 to 95% (noncondensing)
Vibration	1.5 Grms maximum, 0.1 in. (2.5 mm) double amplitude at 0.887 octaves per minute from 5-500-5 Hz sweep, 10-minute dwell on three major peaks, in each of the three major mutually perpendicular axes
Thermal shock	-22♥ (-30℃) 24 hours; 158♥ (+70℃) 24 hours
Altitude	Certified for operation: 0 to 6,500 ft (0 to 2 km)
Headset jack	2.5 mm (four conductor tri-band)
Connector	USB 1.1 master and slave
Material	Latex free and lead free

#### Warranty

Cisco Unified IP Phones are covered by a Cisco Systems<sup>®</sup> standard one-year replacement warranty. A Cisco SMARTnet<sup>®</sup> optional service agreement is available for the Cisco Unified Wireless IP Phone 7921G hardware, Desktop Charger, and Multi-Charger only, not for other accessories, such as batteries.

**Note:** This product is not a medical device and may use an unlicensed frequency band that is susceptible to interference from other devices or equipment.

#### **Cisco Unified Communications Services and Support**

Using the Cisco Lifecycle Services approach, Cisco and its partners offer a broad portfolio of end-to-end services to support the Cisco Unified Communications system. These services are based on proven methodologies for deploying, operating, and optimizing IP communications solutions. Initial planning and design services, for example, can help you meet aggressive deployment schedules and minimize network disruption during implementation. Operate services reduce the risk of communications downtime with expert technical support, and optimize services enhance solution performance for operational excellence. Cisco and its partners offer a system-level service and support approach that can help you create and maintain a resilient, converged network that meets your business needs.
