Benefits

Network management is not just about managing network equipment. With [Cisco DNA Center](#) and [Cyber Vision](#), you can also leverage your Catalyst IE3400 switch to bring Zero Trust security to your industrial network:

- Maintain a detailed inventory of industrial assets with Cyber Vision.
- Drive IT/OT collaboration to group assets into zones with Cyber Vision.
- Define security policies for each zone via Scalable Group Tags (SGT) with Cisco Identity Services Engine (ISE).
- Analyze traffic between zones to validate group segmentation with Cisco DNA Center.
- Deploy segmentation policies with confidence with Cisco DNA Center templates.
- Enjoy automatic threat containment with the IE3400 enforcing zone segmentation.
- Easily modify segmentation by changing Cyber Vision groups when needed.
